Vanity Tops - Custom Ordering Instructions

Use these detailed instructions to fill out the vanity top order form. Follow step-by-step measuring instructions below. If you need help measuring for a banjo, L-shaped top or any other special shape, please ask for assistance.

Step 1

Enter purchase order number (entered by store personnel).

Step 2

Enter color name from the "Marble Colors" section on the Fixtures tab of this book. For two tone vanity tops enter deck color (granite) and then bowl color (solid).

Step 3

Circle faucet drilling preferred.

Step 4

Determine if you want a single or double bowl configuration and use that drawing. Special shapes or cuts will require an additional drawing or template (see step 7).

To determine depth of vanity top:

Measure the overall depth of the cabinet. Add 1" for overhang. This is the depth of your vanity top. American Standard offers 19" and 22" deep vanity tops standard, any other depths 25" and less will require a non-standard depth charge. Enter resulting dimensions in depth box on supplied drawing.

To obtain the width of the vanity top:

If the vanity is between two walls (alcove), measure the opening between the two walls and indicate this on your drawing. Please indicate alcove installation on drawing.

If vanity top is not between two walls, then measure the total width of the cabinet and add 1" for overhang. If vanity top is against one wall, then measure the total width of the cabinet and add 1/2" for overhang.

To obtain bowl placement, measure from the wall or edge of the top to the drain center of the sink. Enter resulting dimension in bowl drain center box on supplied drawing.

Step 5

Select bowl style by marking an "X" in the appropriate box next to name of bowl style. (If you are ordering a two tone vanity top, a non-recessed bowl style is required.)

Enter base charge on appropriate line for the size and color of vanity top desired from Crane Plumbing® price sheet price grid (Price includes vanity top deck and 4" backsplash and one (1) integral bowl).

Enter charge for any additional bowl over the one supplied in the base charge.

Step 6

Note which ends are against a wall. If against a wall, indicate an unfinished edge on your drawing and / or choose a sidesplash by entering number of righthand or lefthand sidesplashes needed and total cost for all sidesplashes ordered on appropriate line.

Step 7

When ordering special shapes make a detailed drawing of the shape desired. Please indicate all measurements, including depth of cut, radius of cut for rounded corners, etc.

Step 8

Enter Total Net Price (total of all charges) add tax, shipping and handling (as applicable) and enter Total Price on appropriate lines.

Terms and Conditions

Customer satisfaction is a Crane Plumbing® priority. Your custom vanity top will be manufactured to the dimensions and specifications you provided on the order form. Crane Plumbing® will assume no responsibility for any top produced to inaccurate or ambiguous drawings or specifications. Once an order is placed, and the vanity top is in production, no changes can be accepted and no deposit monies will be returned. Note: Variations in color hues, vein patterns and vein intensity are common in all Custom Vanity Tops and are not acceptable reasons for a warranty return.

Crane Plumbing® warrants to the purchaser of Crane Plumbing® cultured marble products that each unit is free from defects in material and workmanship, under normal use, for a period of five (5) years from date of purchase. Fully detailed warranty card and installation manual are supplied with each unit. **IMPORTANT:** Dimensions may vary plus or minus 1/8" and are subject to revision. Product must be installed in accordance with installation instructions provided. Failure to do so may invalidate warranty at manufacturers discretion. Installation constitutes acceptance.

Vanity Tops - Custom Ordering Specifications & Pricing

Crane Plumbing®'s custom vanity top program encourages creativity in new construction, remodeling and commercial projects. Since the basis is for custom sizes, shapes and options it is very important that you read the following instructions carefully and fill out the order form (Page 66) completely. Please review the terms and conditions at the bottom of the page.

Specifying Faucet Drillings

1. Specify standard four-inch or eight-inch centersets.
2. For no holes or any non-standard drilling, please add a detailed description on order form (Subject to availability).

Calculation of Base Slab Price (Includes deck with four-inch backsplash and one (1) bowl.

1. Find the retail price for your custom vanity tops size and color from the pricing grids on pages 62-64 (For width dimensions with fractions, use the next full inch cost).
2. All custom vanity tops with bowls must include a four-inch backsplash. Cannot alter height.
3. Slabs only (no bowl) are available, please specify with or without a 4" backsplash. Please call for special pricing.

Additional Bowl Price (Includes one (1) bowl).

1. Cost of additional bowls in all colors with the exception of two-tone colors is calculated by multiplying the number of additional bowls by \$65.00 each.
2. Cost of additional bowls in two-tone colors is calculated by multiplying the number of additional bowls by \$130.00 each.

Sidesplash Multiply number of sidesplashes x price of preferred material/special size below.

Available in 19" and 22" sizes and all custom colors.

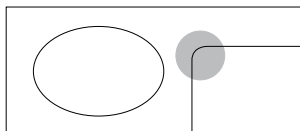

NOTE: Sidesplashes are optional and are installed separately.

Solids/Swirls	\$30.00
Onyx	\$35.00
Granite	\$38.00
** Special Size	\$43.00

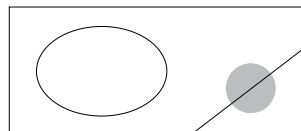

** Any special size sidesplashes will require a dimensional drawing.

Special Shape/Cut Price

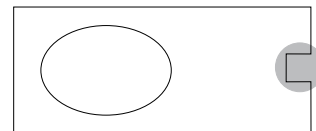

1. Cost of optional shapes and cuts is determined by multiplying the number of options by \$45.00 each (Examples below).

Radius

Diagonal

Notched

Special Terms and Conditions for Custom Vanity Tops

PLEASE READ CAREFULLY BEFORE ORDERING. Customer satisfaction is a Crane Plumbing® priority. Your custom Vanity top will be manufactured to the dimensions and specifications you provided on the order form (Example on page 65). Crane Plumbing® assumes no responsibility for any top produced to inaccurate or ambiguous drawings or specifications. Once an order is placed, and the vanity top is in production, no changes can be accepted and no deposit monies will be returned. Note: Variations in color hue, vein patterns and vein intensity are common in all custom vanity tops and are not acceptable reasons for warranty return.

Crane Plumbing® warrants the original purchaser of all Crane Plumbing® cultured marble products, that the unit will be free from defects in material and workmanship, under normal use for a period of five (5) years from the date of purchase. Fully detailed warranty card and an installation manual are supplied with each unit. **IMPORTANT:** Dimensions may vary plus or minus 1/8" and are subject to revision. Product must be installed in accordance with installation instructions provided. Failure to do so may invalidate warranty at manufacturers discretion. Installation constitutes acceptance.
